[Sacred Pecking Order.pdf](#)

Notes from the Tuesday OPRA LT meeting

The SLT notes have not been posted to the 8Net yet. A few items that Darcy mentioned:

The Administrator has a new Advisor for EJ and Community Revitalization – Mustafah Ali (sp?)

Deb Thomas will be in Williston for an enforcement related meeting later this week.

There are 2 new Air rules coming out, related to O&G and landfills.

Deb Thomas will be in the EPA Montana office early next week for meetings.

The rescission on grants is complete with the exception of a Water grant for ND, per Rick Buhl.

Nonresponsive

Gold King Mine

Deliberative Process/Ex. 5

Any briefings on Shaun's calendar that can wait should be rescheduled.

Callie is in Snowmass giving a keynote address on Shaun's behalf so she was not present for the OPRA LT meeting.

Proposed Water re-organization – comments can be submitted as part of the regional process for review and input (see Shaun's email from last Thursday late afternoon). You can also offer input and suggestions on other needed restructurings / re-orgs.

MaryAnn will be out on 8/19 and 8/20.

Debra Lucas will be out on 8/17 and 8/18

Regarding office space/the peck, here is the response that I received from Yolanda Hobart in HR yesterday:

Nonresponsive

Please feel free to refer Susanna to me if she has any more questions about employee moves.

<http://8net.epa.gov/sites/default/files/resources/The%20Sacred%20Pecking%20Order.pdf>

Darcy is doing some double checking and may be getting back to me with more info./clarification but I don't know the timing of that as everyone is so busy on Gold King.

Other items –

Janice is being deployed to the Gold King Blowout response as Logistics Section Chief & will be leaving the office shortly. She will likely be gone for two weeks.

I'm scheduled to be on travel most of next week, Mon. through Thursday; Margo is acting for me. (quick sidenote – change)
